## Profile

---

**Full-stack Software Engineer with 3 years of experience** delivering scalable applications and APIs. Skilled in building user-focused solutions, ensuring code quality, and collaborating across teams in Agile environments.

## Experience

---

07/2023 – Present  
(Remote) USA

### Software Engineer

*Nimblr Solutions*

- Delivered high-quality frontend solutions with React and TypeScript, resolving complex UI issues, building responsive features, and ensuring a seamless user experience.
- Led the backend migration from FastAPI to NestJS, enhancing scalability, modularity, and maintainability with TypeScript and NestJS's architecture.
- Built a comprehensive Role-Based Access Control (RBAC) system across backend and frontend, enabling secure API access and dynamic, permission-based UI rendering.
- Developed and implemented advanced features for a healthcare solution, improving system capabilities, performance, and user satisfaction.
- Collaborated with cross-functional teams (clients, QA, developers, product managers) to clarify requirements, ensure testing coverage, and deliver seamless user experiences.
- Managed GitHub repositories and deployment flows (Dev, UAT, Prod), ensuring smooth version control and reliable releases.
- Implemented monorepo architecture, Zustand state management, and proactive monitoring with Sentry, boosting development efficiency, reliability, and scalability.

07/2022 – 07/2023  
Cairo

### Frontend Developer

*Interface Technologies*

- Developed an Egypt Tax Calculation application using Flutter, improving efficiency with a modern, cross-platform solution.
- Developed the UI for an HR transformation application that enabled clients to view and assess team qualifications for HRIS adoption easily.

## Education

---

09/2017 – 07/2022  
Cairo university

### Bachelor's degree in engineering

*Cairo university*

Graduated with High Honors, achieving academic excellence

## Skills

---

### Frontend Development

React.js, TypeScript, JavaScript, Zustand, Webflow

### Backend Development

NestJS, FastAPI, Python, Node.js, REST APIs

### Data & Automation

MongoDB, Pandas

### Architecture & Tools

Software Architecture, Turborepo, Monorepo, Git, Version Control

### Mobile Development

Flutter, Dart

### Testing & Monitoring

Jest (Unit Testing), Sentry (Error Monitoring)

## Languages

---
